<b>Snow</b>										
<b>Coastal Flooding</b>										
<b>Risk Levels</b>	Little to None		Minor		Moderate		Major		Extreme	

# Weather Key Points

Regional Operations Center

Western Region

Tuesday, June 7

- Temperatures will steadily warm for the majority of the state through late week and the weekend
  - High temperatures across the inland southern deserts will range from 105 to 115 degrees many days, while readings across the Central Valley peak in the 100 to 105 degree range on Friday
  - Moderate to high heat risk impacts are likely for many areas of the state, with the hottest temperatures and greatest impacts occurring Thursday through Saturday
- Locally breezy conditions will be persistent in and around many mountain and foothill locations through the weekend, bringing periods of locally elevated fire weather conditions. Winds will become a little more gusty and widespread for the weekend and may result in some local critical fire weather conditions
- Mainly dry weather will occur statewide through early next week, though scattered showers and even a few thunderstorms are possible across far northern California later Saturday into Sunday

Dry conditions are expected through Thursday

**Note:** Forecast precipitation amounts are an average for any particular location. Thunderstorms may produce locally higher rainfall amounts.

# Heat Risk

Regional Operations Center

Western Region

Tuesday, June 7

Green	Level 0	No Elevated Risk
Yellow	Level 1	Low Risk for those extremely sensitive to heat, especially those without effective cooling and/or adequate hydration
Orange	Level 2	Moderate Risk for those who are sensitive to heat, especially those without effective cooling and/or adequate hydration

Red	Level 3	High Risk for much of the population, especially those who are heat sensitive and those without effective cooling and/or adequate hydration
Magenta	Level 4	Very High Risk for the entire population due to long duration heat, with little to no relief overnight

Tuesday, June 7

## Impact Level Definition

- Impactful weather is not expected.**
- Potential threat to lives and property if no/incorrect actions are taken.**
  - Localized impacts on commerce possible.
  - Includes events that occur frequently.
- Potential threat to lives and property if no/incorrect actions are taken.**
  - Impacts on commerce possible.
  - Includes events that occur a few times per year.
- Actions likely needed to save lives and/or property.**
  - Significant impacts to commerce possible.
  - Includes events that occur infrequently.
- Actions required to save lives and/or property.**
  - Significant and extended impacts to commerce.
  - Includes exceptionally rare events.
